Here’s what nonprofit organizations are saying about Giveffect

“The greatest thing about Giveffect is that everything is in ONE system.

When we were considering which system to use, the four key things we were looking for was a volunteer database, relationship database, online giving system and registration forms.”

Klassie Shelton, Director of Community Engagement, Goodwill of Western Missouri & Eastern Kansas

“The level of support we receive from Giveffect takes them to a different level: communication is always personal, prompt and always thoughtful.”

Vaish Shastry, Executive Director Sunflower County Freedom Project
“Since we’ve been working with Giveffect manipulating 40,000 records has become way easier. We previously used Kintera/Sphere and their system would always timeout. One of my biggest pet peeves is now solved!”

Martin Mai, Development Director
University Camps Foundation, UCLA

“In summary, these are the departments that use the Giveffect system:

mortgage management,
business office,
marketing and communications,
volunteer and community outreach,
family partnerships,
and pretty soon, Habitat reStore.”

Kevin Miller, Marketing & Communications Director
Habitat for Humanity of East Central Ohio

“Giveffect is straightforward and user-friendly.
It’s easy to get help when we need it. We can quickly open up the chat box and talk to someone. Everything is just really simple, especially when it comes to pulling reports.”

Holly Brown, Director of Development and Marketing
Big Brothers Big Sisters Hawaii
